CPF 1-2017-5005M

Dear Mr. Pastorek:

From September 14 to September 18, 2015, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code inspected Ergon Terminaling, Inc.'s (Ergon) pipeline facility at Magnolia, Ohio.

As a result of the inspection, Ergon was issued a Notice of Amendment (NOA) dated February 27, 2017. In response to the NOA, Ergon submitted revised procedures on March 23, 2017. PHMSA reviewed the revised procedures, and determined that they required further revision to fully address the inadequacies that were defined in the NOA Items 1, 5, 6, 7 and 8. PHMSA issued a Request for Further Amendment (Request) on April 18, 2017.

On May 22, 2017, Ergon requested that the 30-day response period to the Request be extended by 30 days. PHMSA granted the 30-day extension. Ergon submitted its amended procedures on June 12, 2017. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you that no further action is necessary, and this case is now closed. Thank you for your cooperation.

Sincerely,

Robert Burrough
Acting Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
