NOTICE OF AMENDMENT

OVERNIGHT EXPRESS MAIL

April 23, 2012

Randy Barnard, President, Natural Gas Pipelines
Williams Partners
2800 Post Oak Blvd
Houston, TX 77056

CPF 1-2012-1011M

Dear Mr. Barnard:

On August 2, 2011, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code inspected Williams Transco Gas Pipeline's procedures for 49 CFR Part 192 in Salladasburg, PA.

On the basis of the inspection, PHMSA has identified the apparent inadequacy found within Williams Transco Gas Pipeline's (Williams) plans or procedures, as described below:

1. 192.615 Emergency plans

- (a) Each operator shall establish written procedures to minimize the hazard resulting from a gas pipeline emergency. At a minimum, the procedures must provide for the following:**
 - (3) Prompt and effective response to a notice of each type of emergency, including the following:**
 - (i) Gas detected inside or near a building.**

Williams' written procedure to minimize the hazard resulting from a gas pipeline emergency was inadequate in that it did not state prompt and effective response to a notice of each type of emergency. Williams' Emergency Response Plan page 3 of 8 states "If gas is detected near a building, all people inside shall be asked to extinguish all open flames, open windows and doors, and leave immediately." The procedure does not address actions to take when gas is detected inside a building.

Response to this Notice

This Notice is provided pursuant to 49 U.S.C. § 60108(a) and 49 C.F.R. § 190.237. Enclosed as part of this Notice is a document entitled *Response Options for Pipeline Operators in Compliance Proceedings*. Please refer to this document and note the response options. Be advised that all material you submit in response to this enforcement action is subject to being made publicly available. If you believe that any portion of your responsive material qualifies for confidential treatment under 5 U.S.C. 552(b), along with the complete original document you must provide a second copy of the document with the portions you believe qualify for confidential treatment redacted and an explanation of why you believe the redacted information qualifies for confidential treatment under 5 U.S.C. 552(b). If you do not respond within **30** days of receipt of this Notice, this constitutes a waiver of your right to contest the allegations in this Notice and authorizes the Associate Administrator for Pipeline Safety to find facts as alleged in this Notice without further notice to you and to issue a Final Order.

If, after opportunity for a hearing, your plans or procedures are found inadequate as alleged in this Notice, you may be ordered to amend your plans or procedures to correct the inadequacies (49 C.F.R. § 190.237). If you are not contesting this Notice, we propose that you submit your amended procedures to my office within 30 days of receipt of this Notice. This period may be extended by written request for good cause. Once the inadequacies identified herein have been addressed in your amended procedures, this enforcement action will be closed.

It is requested (not mandated) that Williams Pipeline maintain documentation of the safety improvement costs associated with fulfilling this Notice of Amendment (preparation/revision of plans, procedures) and submit the total to, as well as any correspondence relating to this Notice to: Byron Coy, PE, Director, PHMSA Eastern Region, 820 Bear Tavern Road, Suite 103, W. Trenton, NJ 08628. Please refer to **CPF 1-2012-1011M** on each document you submit, and please provide a (signed) copy in electronic format whenever possible. Smaller files may be emailed to Byron.Coy@dot.gov. Larger files should be sent on a CD accompanied by the original (signed) paper copy to the Eastern Region Office.

Sincerely,

Byron Coy, PE
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
