Dear Mr. Drake:

From October 16-22, 2015, an inspector from the Connecticut Department of Energy and Environmental Protection (CT DEEP) acting as agent for the Pipeline and Hazardous Materials Safety Administration (PHMSA), Office of Pipeline Safety, pursuant to Chapter 601 of 49 United States Code inspected the Algonquin Gas Transmission's (AGT) (a subsidiary of Spectra Energy Corp)(Spectra) main construction work (Spectra's AIM Project) along the pipeline right-of-way west of Milestone Road in Danbury, Connecticut.

As a result of the inspection, AGT was issued a Notice of Amendment on December 17, 2015, which proposed amendment of your procedures.

AGT submitted its amended procedures on January 14, 2016.

My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Byron Coy, PE
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
