CPF 2-2014-0015M

Dear Mr. Wambold:

Between January 27 and May 28, 2014, representatives of the Pipeline and Hazardous Materials Safety Administration (PHMSA), Southern Region, Office of Pipeline Safety (OPS) inspected the Ferrellgas written Pipeline Manual, pursuant to Chapter 601 of 49 United States Code. As a result of the inspection, PHMSA issued a Notice of Amendment (NOA) on September 4, 2014.

Ferrellgas responded to the NOA in a letter dated October 6, 2014, which was received by the OPS Southern Region on October 20, 2014. The OPS Southern Region reviewed the written response and subsequently held conversations with Ferrellgas personnel. As a result, we find Ferrellgas' response adequate. Therefore, this letter is to inform you that Ferrellgas has complied with the terms of the NOA and that no further action is necessary with regards to the NOA. This case is now closed.

Please be advised that this letter refers only to the above referenced order (CPF 2-2014-0015M) and not to any other PHMSA cases, if any.

Sincerely,

Wayne T. Lemoine
Director, Office of Pipeline Safety
PHMSA Southern Region
