CPF 2-2014-1002

Dear Mr. Fullerton:

On April 17, 2015, the Pipeline and Hazardous Materials Safety Administration (PHMSA), Office of Pipeline Safety (OPS) issued Leaf River Energy Center, LLC (LREC) a Final Order with an attached Compliance Order (CO) in the above referenced case. The CO required LREC to undertake certain actions to ensure compliance with the federal pipeline safety regulations.

On June 10, 2015, LREC provided written notification and documentation that it had completed CO Items 1, 2, and 3. On September 2, 2015, LREC provided written notification that it had completed all the requirements of the CO.

Based on our review of the actions taken by LREC and the supporting documentation we have determined that LREC has complied with the terms of the CO and the Final Order. This case is now closed and no further action is necessary with respect to the matters involved in this case.

Please refer to **CPF 2-2014-1002** in any correspondence referring to this matter. If you have any questions on any other pipeline safety issue, please contact my office at (404) 832-1147.

Sincerely,

James A. Urisko
Acting Director, Office of Pipeline Safety
PHMSA Southern Region
