Mr. Ivan A. Huntoon
Director, Central Region
Pipeline and Hazardous Material Safety Administration
901 Locust Street, Suite 462
Kansas City, MO 64106-2641

Dear Mr. Huntoon:

On August 31, 2009 Southern Star Central Gas Pipeline received via mail a Notice of Amendment (NOA) from your office at the Pipeline and Hazardous Material Safety Administration (PHMSA). The contents of the letter listed fifteen (15) inadequacies pertaining to the policies and/or procedures of Southern Star Central Gas Pipeline's Operations and Maintenance Manual.

Southern Star Central Gas Pipeline has reviewed the listed inadequacies and have determined there will be no contested issues. Appropriate personnel are working to address all of the concerns within the NOA and how best to remediate the inadequacies as they pertain to our Operations and Maintenance Manual. If you have questions or concerns, please call David Sinclair at 270-852-4424 or his mobile phone 270-993-1249.

Sincerely,

A handwritten signature in cursive script that reads "Daniel L. Goedde".
