

July 25, 2013

Mr. David Barrett  
Director, Central Region  
U.S. Department of Transportation  
PHMSA  
901 Locust Street, Suite 462  
Kansas City, MO 64106-2641

**Re: CPF 3-2013-0004M**

Dear Mr. Barrett:

We have received the above-referenced Notice of Amendment. Consequently, we are seeking clarification of the terms of the Notice of Amendment. We are completing an operational evaluation as to the necessity of maintaining storage capacities in any systems greater than a 4000-gallon aggregate capacity. However; we are seeking detailed information of the omissions in our policy.

We have maintained a mutually cooperative relationship with the PHMSA Field Inspector, Kevin Streeter. Please advise if we would be able to speak with Kevin to further determine what corrective actions would be appropriate in response to the Notice of Amendment and the applicable regulatory requirements.

Sincerely,

**Ed Moreno**
