NOTICE OF AMENDMENT

CERTIFIED MAIL - RETURN RECEIPT REQUESTED

November 20, 2015

Mr. Dave Podratz
Plant Manager
Calumet Superior, LLC
2407 Stinson Avenue
Superior, Wisconsin 54880

CPF 3-2015-5013M

Dear Mr. Podratz:

On August 21, 2012, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code inspected Calumet Superior, LLC's (Calumet's) Public Awareness Program in Superior, Wisconsin.

On the basis of the inspection, PHMSA has identified apparent inadequacies found within Calumet's Public Awareness Program, as described below:

1. § 195.440 Public Awareness

(b) The operator's program must follow the general program recommendations of API RP 1162 and assess the unique attributes and characteristics of the operator's pipeline and facilities.

Calumet's procedures are inadequate because they do not ensure that the Public Awareness information provided to stakeholders includes specific details on the pipeline's purpose, reliability, and location per API RP 1162.

2. § 195.440 Public Awareness

(c) The operator must follow the general program recommendations, including baseline and supplemental requirements of API RP 1162, unless the operator provides justification in its program or procedural manual as to why compliance with all or certain provisions of the recommended practice is not practicable and not necessary for safety.

Calumet's procedures are inadequate because they do not delineate between detailed guidance for conducting the annual implementation reviews and the effectiveness evaluations. The procedures do not include a description of what is required for each type of review to ensure that all targeted areas are covered, and that a methodology for implementing and tracking improvements to the plan are completed as required by API RP 1162.

Calumet's procedures are inadequate because they do not include criteria or relevant factors to consider for determining whether supplemental enhancements are necessary as required by API RP 1162.

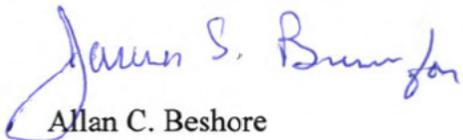

Response to this Notice

This Notice is provided pursuant to 49 U.S.C. § 60108(a) and 49 C.F.R. § 190.237. Enclosed as part of this Notice is a document entitled *Response Options for Pipeline Operators in Compliance Proceedings*. Please refer to this document and note the response options. Be advised that all material you submit in response to this enforcement action is subject to being made publicly available. If you believe that any portion of your responsive material qualifies for confidential treatment under 5 U.S.C. 552(b), along with the complete original document you must provide a second copy of the document with the portions you believe qualify for confidential treatment redacted and an explanation of why you believe the redacted information qualifies for confidential treatment under 5 U.S.C. 552(b). If you do not respond within 30 days of receipt of this Notice, this constitutes a waiver of your right to contest the allegations in this Notice and authorizes the Associate Administrator for Pipeline Safety to find facts as alleged in this Notice without further notice to you and to issue a Final Order.

If, after opportunity for a hearing, your plans or procedures are found inadequate as alleged in this Notice, you may be ordered to amend your plans or procedures to correct the inadequacies (49 C.F.R. § 190.237). If you are not contesting this Notice, we propose that you submit your amended procedures to my office within 30 days of receipt of this Notice. This period may be extended by written request for good cause. Once the inadequacies identified herein have been addressed in your amended procedures, this enforcement action will be closed.

It is requested (not mandated) that Calumet maintain documentation of the safety improvement costs associated with fulfilling this Notice of Amendment (preparation/revision of plans, procedures) and submit the total to Allan C. Beshore, Director, Central Region, OPS, Pipeline and Hazardous Materials Safety Administration. In correspondence concerning this matter, please refer to **CPF 3-2015-5013M** and, for each document you submit, please provide a copy in electronic format whenever possible.

Sincerely,

Allan C. Beshore
Director, Central Region, OPS
Pipeline and Hazardous Materials Safety Administration
