CPF 4-2012-5024M

Dear Mr. Weyer:

During the week of December 12-15, 2011, representatives of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code inspected the Dow Chemical Pipeline-Cayuse (Dow) procedures for Control Room Management in Houston, TX. As a result of the inspection, Dow was issued a Notice of Amendment on June 26, 2012, which proposed amendment of your procedures.

Dow submitted its amended procedures over a period from July 30 - August 29, 2012. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you that no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

R. M. Seeley
Director, Southwest Region
Pipeline and Hazardous Materials Safety Administration
