Dear Ms. Hollub:

During the week of July 18 – 22, 2011, representatives of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code inspected the Bravo Pipeline (Bravo) procedures for the Liquid IMP in Houston, TX. Bravo is owned by Occidental Permian, Kinder Morgan CO2, and XTO Energy and is operated on behalf of Occidental Permian. As a result of the inspection, Bravo was issued a Notice of Amendment on November 1, 2012, which proposed amendment of your procedures.

Bravo submitted its amended procedures on December 2, 2012. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you that no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

R. M. Seeley
Director, Southwest Region
Pipeline and Hazardous Materials Safety Administration
