CPF 5-2010-5026M

Dear Ms. Roberts:

On June 8 – 11, 2010, representatives of the Pipeline and Hazardous Materials Safety Administration (PHMSA) and the Washington Utilities and Transportation Commission (WUTC), pursuant to Chapter 601 of 49 United States Code, inspected Chevron Pipe Line Company's procedures for operations, maintenance, and emergency response in Lakewood, Colorado. As a result of the inspection, Chevron was issued a Notice of Amendment on September 21, 2010, which proposed amendment of your procedures.

Chevron submitted its amended procedures on December 2, 2010. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Chris Hoidal
Director, Western Region
Pipeline and Hazardous Materials Safety Administration
