**CPF 5-2011-0024M  
Closure Letter**

Dear Mr. King:

On June 13-17, 2011, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Edison Mission Operations and Maintenance procedures in Fellows, California. As a result of the inspection, Edison Mission was issued a Notice of Amendment, CPF 5-2011-0024M, on August 23, 2012, which proposed amendment of your procedures.

Edison Mission submitted its amended procedures on September 12, 2012. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Chris Hoidal  
Director, Western Region  
Pipeline and Hazardous Materials Safety Administration
