Chief Assistant General Manager
City of Glendale Water & Power

CPF 5-2012-0010M

Dear Mr. Lins:

On November 8, 2011, representatives from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of City of Glendale Water & Power's procedures for the Scholl Canyon Landfill Gas System in Glendale, California. As a result of the inspection, the City of Glendale Water & Power was issued a Notice of Amendment on April 10, 2012, which proposed amendment of your procedures.

The City of Glendale Water & Power submitted its amended procedures on April 24, 2012. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Chris Hoidal
Director, Western Region
Pipeline and Hazardous Materials Safety Administration
