Dear Ms. Eckels:

From November 4 through November 8, 2013, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Tallgrass procedures in Control Room Management (CRM). As a result of the inspection, Tallgrass was issued a Notice of Amendment on March 27, 2015, which proposed amendment of your CRM procedures.

Tallgrass submitted its amended procedures on May 1, 2015. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

A handwritten signature in black ink that reads "Chris Hoidal".
