

Second Quarterly Report – Public Page

Report Date: October 31, 2008

Contract Number: DTPH56-08-T-000001

Project Title: Development of a Commercial Model to Predict Stress Corrosion Crack Growth Rates in Operating Pipelines, #324

Prepared for: U.S.DOT Pipeline Hazardous Materials Safety Administration

Prepared by: Southwest Research Institute®
6220 Culebra Road
San Antonio, TX, 78238

Contact Information: Frank Song

fengmei.song@swri.org

2nd Quarterly Period Ending: October 31, 2008

Progress to Date:

SwRI continues its model development. The high pH SCC model is to be improved and is to be modified that will be applicable for near-neutral pH SCC prediction.

Collection and analysis of full-scale test data and field data by CANMET and Blade Energy is underway.
