CPF 1-2012-5005M

Dear Mr. Wilson:

From October 4 to 6, 2011, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code inspected the Portland Pipeline Corporation's (Portland) Public Awareness Program in South Portland, Maine. As a result of the inspection, Portland was issued a Notice of Amendment (NOA) on February 10, 2012.

On March 6, 2012, Portland submitted its initial response to the NOA, along with proposed amendments. On May, 22, 2012, Portland completed its submission of amended procedures. My staff reviewed the amended procedures, and it appears that the inadequacies set forth in the NOA have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Byron Coy, PE
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
