CPF 1-2013-1024M

Dear Mr. Meissner:

From August 9 to August 11, 2011, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA), Office of Pipeline Safety (OPS), pursuant to Chapter 601 of 49 United States Code inspected Granite State Gas Transmission, Inc.'s (Granite State) Public Awareness Program in Hampton, New Hampshire. As a result of the inspection, Granite State was issued a Notice of Amendment (NOA) on November 13, 2013.

On February 11, 2014, Granite State submitted a response to the NOA along with amended procedures. My staff reviewed the amended procedures, and it appears that the inadequacies set forth in the NOA have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Byron Coy, PE
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
