CERTIFIED MAIL-RETURNED RECEIPT REQUEST-7196090080911116890433

Dear Mr. Seeley,

Stone Energy Corporation is in receipt of the Notice of Amendment dated April 28, 2016. Since the time of the Inspection on February 9-13, 2015 Stone Energy has sold and abandoned the East Cameron 46 pipeline and no longer operates any pipelines jurisdictional to the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code. Due to the divestiture and abandonment of EC 46, Stone Energy no longer operates PHMSA jurisdictional pipelines, and there is no longer a need to maintain procedural manuals for operations, maintenance and emergencies per 49 CFR 195. At this time there is no active Stone Energy Operations, Maintenance and Emergency Manual to be amended.

The pipeline from the East Cameron 46B Platform to the tie-in at East Cameron 2 was abandoned on May 16, 2016. The Certificate of Abandonment was filed with the Office of Pipeline Safety via email at InformationResourcesManager@phmsa.dot.gov as per 49 CFR 195.59. A copy of the certificate will also be filed with NPMS as part of the Stone Energy year-end 2016 filing. A copy is attached to this letter for you reference as Attachment A.

The remaining pipeline from EC 2 to the Plains Tank Farm in Cameron Parish, Louisiana was sold to Fieldwood Energy, LLC effective February 1, 2016. Notification of this divestiture was sent to PHMSA through the PHMSA portal on May 24, 2016. A copy of this filing is also attached to this response for your reference. The change in ownership of this section of the EC 46 line will be updated in the NPMS database in the filing of the year-end 2016 filing.

If you have any questions or require any additional information please feel free to contact me at (337) 521-2126.

Sincerely,

J. Greg Hernandez
Stone Energy Corporation
Engineering and Construction Manager

Ms. Amy Nelson
 GIS Manager
