Dear Mr. DeVegvar:

On November 14, 2012, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, inspected Greka Energy's procedures for their Public Awareness Program in Santa Maria, California. As a result of the inspection, Greka Energy was issued a Notice of Amendment on April 26, 2013, which proposed amendment of your procedures.

Greka Energy submitted its amended procedures on July 15, 2013. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Chris Hoidal
Director, Western Region
Pipeline and Hazardous Materials Safety Administration
