CERTIFIED MAIL - RETURN RECEIPT REQUESTED

January 19, 2011

Mr. David Goodwin
Vice President Compliance and Operations Services
Gulf South Pipeline Co., L.P.
9 Greenway Plaza, Suite 2800
Houston, TX 77046

CPF 2-2011-1001

Dear Mr. Goodwin:

On October 5 through November 20, 2009, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA) inspected the Texas Gas Transmission, LLC (Texas Gas) pipeline facilities and records in Arkansas, Kentucky, Mississippi, and Tennessee pursuant to Chapter 601 of 49 United States Code.

As a result of the inspection, it appears that you have committed probable violations of the Pipeline Safety Regulations in Title 49 of the Code of Federal Regulations. The items inspected and the probable violations are:

- 1. §192.709 Transmission lines: Record keeping.**
Each operator shall maintain the following records for transmission lines for the periods specified:
... (c) A record of each patrol, survey, inspection, and test required by subparts L and M of this part must be retained for at least 5 years or until the next patrol, survey, inspection, or test is completed, whichever is longer.

Texas Gas failed to maintain records for relief valve capacity determinations for calendar year 2008 for its West Greenville District.
