Dear Mr. Grubb:

From April 27, 2020 through May 1, 2020, representatives of the Pipeline and Hazardous Materials Safety Administration (PHMSA) inspected Tennessee Gas Pipeline Company's (TGP) Control Room Management Program and records in Houston, Texas, pursuant to Chapter 601 of 49 United States Code. TGP is a subsidiary of Kinder Morgan (KM). As a result of the inspection, TGP was issued a Notice of Probable Violation and Proposed Compliance Order on May 26, 2021 and a Final Order on August 12, 2021.

TGP submitted its response and amended procedures on October 13, 2021. PHMSA has reviewed the response and determined that TGP has complied with the terms of the Final Order.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Please be advised that this letter refers only to the referenced NOPV (**CPF 2-2021-002-NOPV**) and not to any other PHMSA cases, if any.

Sincerely,

A handwritten signature in blue ink, appearing to read "J. Urisko".
