Dear Mr. Boyer:

In October 2010, representatives of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code inspected Centurion Pipeline LP in Slaughter, TX. As a result of the inspection, Centurion was issued a Notice of Amendment on August 17, 2011. This Notice proposed amendment of your procedures to assure safe operation of your pipeline facilities.

Centurion initially submitted its amended procedures on October 20, 2011. PHMSA requested additional revisions and Centurion resubmitted revised procedures at a meeting with PHMSA on December 8, 2011. My staff has reviewed the amended procedures, and the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

R. M. Seeley
Director, Southwest Region
Pipeline and Hazardous
Materials Safety Administration
