Re: CPF No. 4-2017-5012

Dear Mr. Dunwoody:

On November 14 through 17, 2017, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code (U.S.C.) inspected, EnVen Energy Ventures, LLC(EnVen), Cognac Pipeline Offshore Liquid System. As a result of the inspection, EnVen was issued Final Order on March 29, 2018. The Final Order resulted in a compliance order.

On May 14, 2018, EnVen submitted their procedure to obtain rectifier inspection reports from Hilcorp at least six times per calendar year not to exceed 2 ½ months. In addition, EnVen submitted records of the rectifier readings from January 3, 2015 to September 1, 2018.

Based on the PHMSA review, it has been determined that EnVen has completed the requirements of the Final Order. This letter is to inform you that no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Mary A. McDaniel, P.E.
Director, Southwest Region
Pipeline and Hazardous Materials Safety Administration
