Dear Mr. Spencer:

On March 23 – March 27, 2020, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an inspection of ONEOK NGL Pipeline, LLC (ONEOK) procedures and records for Control Room Management (CRM), in Tulsa, Oklahoma, via a remote inspection. As a result of the inspection, ONEOK NGL Pipeline, LLC was issued a Notice of Amendment on August 26, 2020, which proposed amendment of your procedures.

ONEOK submitted its amended procedures on November 11, 2020 followed by a December 3, 2020 submittal. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Mary L. McDaniel, P.E.  
Director, Southwest Region  
Pipeline and Hazardous Materials Safety Administration
