Dear Mr. Goleman:

On October 1, 2012, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of XTO Energy Inc.'s procedures in Anchorage, Alaska. As a result of the inspection, XTO Energy Inc. was issued a Notice of Amendment on October 24, 2012, which proposed amendment of your procedures.

XTO Energy Inc. submitted its amended procedures on February 13, 2013. My staff has reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Dennis Hinnah
Deputy Director, Western Region
Pipeline and Hazardous Materials Safety Administration
