Dear Ms. Ramirez:

On March 28, 2012, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of your municipal gas distribution system procedures in Coalinga, CA. As a result of the inspection, City of Coalinga was issued a Notice of Amendment on June 14, 2013, which proposed amendment of your procedures.

The City of Coalinga submitted its amended procedures on August 15, 2013. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

  
Chris Hoidal  
Director, Western Region  
Pipeline and Hazardous Materials Safety Administration
