Closure Letter**

Dear Mr. Sanders:

On August 8, 2019, the Pipeline and Hazardous Materials Safety Administration (PHMSA) issued to SFPP, LP a final Safety Order in the above-referenced case. The Safety Order adopted the preliminary findings and remedial measures set forth in the Notice of Proposed Safety Order which had requirements to take certain corrective measures to remedy the alleged safety conditions of the SFPP 12-inch El Paso-to-Tucson refined products pipeline. Based on our review of the documentation provided, it has been determined SFPP, LP has complied with all of the terms of the Safety Order.

Accordingly, this case is now closed and no further action is required. Thank you for your cooperation in this matter.

Sincerely,

Dustin Hubbard
Director, Western Region
Pipeline and Hazardous Materials Safety Administration
