Closure Letter**

Dear Mr. Golanian:

On February 28, 2022, the Pipeline and Hazardous Materials Safety Administration (PHMSA) issued to the City of Glendale (Glendale) a Final Order in the above-referenced case. This Order included a Compliance Order, which noted that, if Glendale chose to abandon its pipeline, the terms of the Compliance Order would not need to be met. On March 16, 2022, Glendale confirmed that its gas transmission pipeline had been abandoned and submitted photographic documentation of the abandonment. Based on our review of the documentation Glendale provided, it has been determined that Glendale has abandoned its pipeline and therefore, complied with the terms of this Order.

Accordingly, this case is now closed and no further action is contemplated with respect to the matters involved in this case. Thank you for your cooperation in this matter.

Sincerely,

Dustin Hubbard
Director, Western Region
