MISSION

The mission of the U.S. Department of Transportation (DOT) is to ensure our nation has the safest, most efficient and modern transportation system in the world. DOT's Pipeline and Hazardous Materials Safety Administration (PHMSA) protects people and the environment by advancing the safe transportation of energy and other hazardous materials that are essential to our daily lives. To do this, the agency establishes national policy, sets and enforces standards, educates, and conducts research to prevent incidents. We also prepare the public and first responders to reduce consequences if an incident does occur. To accomplish this, PHMSA awards grants to states, localities, communities, and nonprofits that help make sure pipelines operate safely and shipments arrive without incident.

SECTION A - PROGRAM DESCRIPTION

A.1 Purpose

The Pipeline and Hazardous Materials Safety Administration (PHMSA), through the U.S. Department of Transportation (DOT), requests applications from eligible States and municipalities for grants supporting damage prevention activities. The purpose of the State Damage Prevention (SDP) grant is to establish or improve State programs and to protect underground pipeline facilities from excavation damage.

A.2 Statute and Program Authority

The SDP program was first authorized in the Pipeline Inspection, Protection, Enforcement, and Safety Act of 2006 and is codified at 49 U.S.C. §60134, State Damage Prevention Programs. Section 2 of Public Law 109-468 (December 29, 2006), titled: "Pipeline Safety and Damage Prevention" authorizes the Secretary of Transportation to make grants to a State authority (including a municipality with respect to intrastate gas pipeline transportation) to assist in improving the overall quality and effectiveness of a damage prevention program of the State authority. The SDP program has been reauthorized by the Pipeline Inspection, Protection, Enforcement and Safety Act of 2006 (Public Law 109-468), the Pipeline Safety, Regulatory Certainty, and Job Creation Act of 2011 (Public Law 112-90), and the Protecting Our Infrastructure of Pipelines and Enhancing Safety Act of 2016 (Public Law 114-183).

A.3 Background

Since program inception in 2008, PHMSA has awarded over \$15.1 million to 40 state organizations. The purpose of the SDP grants is to establish comprehensive state programs designed to prevent damage to underground pipelines in states that do not have such programs and to improve damage prevention programs in states that do. States are encouraged to implement the nine elements of an effective damage prevention program with the grant. A summary of the past SDP awards, including final reports from completed grant projects, is available at <https://primis.phmsa.dot.gov/sdp/?nocache=2783>.

SECTION B - FEDERAL AWARD INFORMATION

B.1 Funding

This Notice of Funding Opportunity (NOFO) is subject to the availability of funds. PHMSA anticipates \$1,500,000 will be available to support the SDP grant program. Grant awards under this NOFO may not exceed \$100,000 for a single recipient.

B.2 Period of Performance

The period of performance is twelve (12) months from the effective date of award for each grant. Applicants should only apply for funding that can be reasonably expended within this timeframe and for projects that can be completed within the 12-month period of performance.

B.3 Type of Award

Discretionary grant award.

B.4 Previous Awards

Applicants that received a previous PHMSA SDP grant award may apply for a FY 2018 grant. Applicants that applied for a PHMSA One-Call grant may also apply. Applicants may apply for grants under both programs for projects that are related, but cannot receive funding under both programs for projects that are identical in scope.

SECTION C - ELIGIBILITY INFORMATION

C.1 Eligible Applicants

Any State authority designated by the Governor, including a municipality, which is or will be responsible for protecting underground pipeline facilities from excavation damage is eligible. Applicants must have the eligible state authority participate in the oversight of pipeline transportation pursuant to an annual 49 U.S.C. § 60105 certification or a 49 U.S.C. § 60106 agreement in effect with PHMSA.

To qualify (49 U.S.C. § 60134(a)(3)) for funding under this program, a State may *not* provide any exemptions to municipalities, State agencies, or their contractors, from the one-call notification system requirements of the program.

C.2 Cost Sharing or Matching

There are no cost-sharing or matching requirements.

C.3 Other Eligibility Requirements – The Nine Elements of Effective Damage Prevention Program

PHMSA may award a grant to an eligible State authority only if the State has an effective damage prevention program or demonstrates that it has made substantial progress toward establishing an effective program. An effective damage prevention program (49 U.S.C. §60134 (b)) includes one or more of the nine (9) elements below.

- **Element 1 (Effective Communications):** Participation by operators, excavators, and other stakeholders in developing and implementing methods for establishing and

maintaining effective communications between stakeholders—from receipt of an excavation notification to successful completion of the excavation, as appropriate.

- **Element 2 (Comprehensive Stakeholder Support):** A process for fostering and ensuring the support and partnership of stakeholders, including excavators, operators, locators, designers, and local government in all phases of the program.
- **Element 3 (Operator Internal Performance Measurement):** A process for reviewing the adequacy of a pipeline operator’s internal performance measures regarding persons performing locating services and quality assurance programs.
- **Element 4 (Effective Employee Training):** Participation by operators, excavators, and other stakeholders in developing and implementing effective employee training programs to ensure that operators, the one-call center, the enforcing agency, and the excavators have partnered to design and implement training for the employees of operators, excavators, and locators.
- **Element 5 (Public Education):** A process for fostering and ensuring active participation by all stakeholders in public education for damage prevention activities.
- **Element 6 (Dispute Resolution):** A process for resolving disputes that defines the State authority’s role as a partner and facilitator to resolve issues.
- **Element 7 (Enforcement):** Enforcement of State damage prevention laws and regulations for all aspects of the damage prevention process, including public education, and the use of civil penalties for violations assessable by the appropriate State authority.
- **Element 8 (Technology):** A process for fostering and promoting the use, by all appropriate stakeholders, of improving technologies that may enhance communications, underground pipeline locating capability, and gathering and analyzing information about the accuracy and effectiveness of locating programs.
- **Element 9 (Damage Prevention Program Review):** A process for review and analysis of the effectiveness of each program element, including a means for implementing improvements identified by such program reviews.

SECTION E - APPLICATION REVIEW INFORMATION

E.1 Criteria

PHMSA will evaluate the SDP applications using the five criteria below. Each of these categories will be weighted, with Criterion 1 being weighted the most, and Criterion 5 being weighted the least.

Criterion 1. Relevance to the Nine Elements:

This criterion will be used to evaluate proposed work under each element addressed in the application and will be used to evaluate proposed projects that:

- Clearly link results to one or more of the nine elements listed in Section C.3.
- Have merit for advancing implementation or continued support of one or more of the nine elements within the State.
- Align with the meaning and intent of the nine elements, as described in PHMSA's Damage Prevention Assistance Program (DPAP) Guide (available at

<http://primis.phmsa.dot.gov/comm/publications/DPAP-Guide-FirstEdition-20080911.pdf?nocache=6648>).

Criterion 2. Costs, Results and Schedule:

This criterion will be used to evaluate proposed work under each element addressed in the application and will be used to evaluate proposed projects that:

- Will produce tangible results within the proposed project period.
- Establish clear goals, objectives, milestones, and estimates of project costs.
- Have deliverables that do not overlap with the deliverables of any other PHMSA grant award to the States.
- Use funds efficiently and effectively.

Criterion 3. State's Commitment to the Nine Elements:

This criterion will be used to evaluate the applicant's description of existing damage prevention activities as they relate to the nine elements. This criterion will be used to evaluate applications that demonstrate that the State has made substantial progress toward, or has clear and concrete plans for, implementing the nine elements.

Criterion 4. State's Commitment to Damage Prevention Program Effectiveness:

This criterion will be used to evaluate the applicant's description of any legislative or regulatory actions (including studies, etc.) taken by the State within the past five (5) years pertaining to damage prevention program improvement. This criterion will be used to evaluate applications that demonstrate the State's commitment to ensuring lasting damage prevention program effectiveness and continuing improvement, including any legislative and/or regulatory actions taken within the past five (5) years or other significant activities, such as efforts of study groups or task teams established to analyze the State's damage prevention program.

Criterion 5. Past Performance:

This criterion will be used to evaluate past performance of applicants who have received a PHMSA State Damage Prevention grant in the past. Past performance includes fulfillment of grant agreements in a timely manner and compliance with grant terms and conditions. Applicants who received funding previously for a project that is ongoing, and are requesting grant funding for the continuation of that project, should provide a summary of accomplishments and tasks completed during the previous grant period. The information provided should include measurable results and deliverables, and should include any information about tasks that were not completed or other challenges encountered during the grant period.

E.2 Review and Selection Process

PHMSA will conduct an initial administrative review of each completed application to determine if it is complete and meets the eligibility and responsibility requirements. A team composed of representatives from damage prevention stakeholder groups will review and evaluate each completed application that meets the eligibility requirements

and provide recommendations for award. Final award decisions will be made by PHMSA and the Secretary of Transportation.

Rating Guideline
<p>Exceptional - The application demonstrates that the requirements of the NOFO are <i>very</i> well understood and the approach will likely result in <i>high quality</i> performance. The application clearly addresses and exceeds requirements with no weaknesses. The application contains outstanding features that meet or exceed, on multiple dimensions, the expectations of the Government. The risk of poor performance is low.</p>
<p>Acceptable - The application demonstrates that the requirements of the NOFO are understood and the approach will likely result in <i>satisfactory</i> performance. The application addresses and meets most requirements with some minor but correctable weaknesses noted. The application demonstrates at least minimum requisite experience, qualifications, and performance capabilities. The risk of poor performance is no more than moderate.</p>
<p>Unacceptable - The application does not meet the requirements of the NOFO. The application <i>fails</i> to address many requirements or, although it addresses and may partially satisfy some requirements, major weaknesses and/or deficiencies are noted. The application could not satisfy critical requirements without a major revision and/or a rewrite of the application or a major redirection effort. The risk of poor performance is high.</p>

Waiver request forms can be obtained on the DOT eInvoicing website (<http://www.transportation.gov/cfo/delphi-einvoicing-system.html>) or by contacting the PHMSA Agreement Administrator. Recipients must explain why they are unable to use or access the internet to register and enter payment requests.

11. Payments (PHMSA March 2014)

Recipients, upon receipt of the fully executed award document, may request up to 50% of the total federally funded amount of the award. The remaining amount may be requested, upon receipt and approval, (by the PHMSA Agreement Officer) of the “Mid-Term Report.”

Advance payments or Reimbursement payments will be made after the electronic receipt via the DOTeInvoicing System of “Request for Advance or Reimbursement” (Standard Form SF-270).

- a) Method of payment.
 - i) The Government will make all payments under this agreement by electronic funds transfer (EFT), except as provided by paragraph (a)(ii) of this clause. As used in this clause, the term “EFT” refers to the funds transfer and may also include the payment information transfer.
 - ii) If the Government is unable to release one or more payments by EFT, the Recipient agrees either to –
 - (a) Accept payment by check or some other mutually agreeable method of payment; or
 - (b) Request the Government to extend the payment due date until such time as the Government can make payment by EFT (but see paragraph d. of this clause).
- b) Recipient’s EFT information. The Government will make payment to the Recipient using the EFT information contained in the System for Award Management (SAM) database. If the EFT information changes, the Recipient is responsible for providing the updated information into the System for Award Management (SAM) at: <https://www.sam.gov>
- c) Mechanisms for EFT payment. The Government may make payment by EFT through either the Automated Clearing House (ACH) network, subject to the rules of the National Automated Clearing House Association, or the Fedwire Transfer System. The rules governing Federal payments through the ACH are contained in 31 CFR Part 210.
- d) Suspension of payment. If the Recipient’s EFT information in the SAM database is incorrect, the Government is not obligated to make payment to the Recipient under this agreement until the correct EFT information is entered into the SAM database. An invoice or agreement-financing request is not a proper invoice for the purpose of prompt payment under this agreement.
- e) Recipient EFT arrangements. If the Recipient has identified multiple payment receiving points (i.e., more than one remittance address and/or EFT information set)

in the SAM database, and the Recipient has not notified the Government of the payment receiving point applicable to this agreement, the Government will make payment to the first payment receiving point (EFT information set or remittance address as applicable) listed in the SAM database.

- f) Liability for uncompleted or erroneous transfers.**
- i)** If an uncompleted or erroneous transfer occurs because the Government used the Recipient's EFT information incorrectly, the Government remains responsible for –
 - (a) Making a correct payment;
 - (b) Paying any prompt payment penalty due; and
 - (c) Recovering any erroneously directed funds.
 - ii)** If an uncompleted or erroneous transfer occurs because the Recipient's EFT information was incorrect, or was revised within 30 days of Government release of the EFT payment transaction instruction to the Federal Reserve System, and –
 - (a) If the funds are no longer under the control of the payment office, the Government is deemed to have made payment and the Recipient is responsible for recovery of any erroneously directed funds; or
 - (b) If the funds remain under the control of the payment office, the Government will not make payment, and the provisions of paragraph d. of this clause apply.
- g) EFT and prompt payment.** A payment will have been made in a timely manner in accordance with the prompt payment terms of this agreement if, in the EFT payment transaction instruction released to the Federal Reserve System, the date specified for settlement of the payment is on or before the prompt payment due date, provided the specified payment date is a valid date under the rules of the Federal Reserve System.
- h) EFT and assignment of claims.** If the Recipient assigns the proceeds of this agreement, the Recipient must require, as a condition of any such assignment, that the assignee register in the SAM database and be paid by EFT in accordance with the terms of this clause. In all respects, the requirements of this clause will apply to the assignee as if it were the Recipient. EFT information that shows the ultimate recipient of the transfer to be other than the Recipient, in the absence of a proper assignment of claims acceptable to the Government, is incorrect EFT information within the meaning of paragraph d. of this clause.
- i) Liability for change of EFT information by financial agent.** The Government is not liable for errors resulting from changes to EFT information made by the Recipient's financial agent.
- j) Payment information.** The payment or disbursing office will forward to the Recipient available payment information that is suitable for transmission as of the date of release of the EFT instruction to the Federal Reserve System. The Government may request the Recipient to designate a desired format and method(s) for delivery of payment information from a list of formats and methods the payment office is capable of executing. However, the Government does not guarantee that any particular format or method of delivery is available at any particular payment office and retains the latitude to use the format and delivery method most convenient to the Government. If the Government makes payment by check in accordance with paragraph a. of this clause, the Government will mail the payment information to the remittance address contained in the SAM database.

22. 811, Call Before You Dig Program (PHMSA June 2014)

Damage to pipelines during excavation is a leading cause of accidents resulting in serious injuries and fatalities, but these accidents are preventable, and you can help in preventing them.

811 is designated as the national call-before-you-dig number. Every state has a one-call law requiring excavators to have underground utilities marked before digging.

There are five steps to safer digging:

1. Make a free call to 811 a few days before digging.
2. Wait the required time – which is prescribed in state law but generally two to three days.
3. Locate/mark the utilities accurately. (This step applies to underground facility/utility owners.)
4. Respect the marks.
5. Dig with care.

The recipient is encouraged to adopt the “811, Call Before You Dig” program for its employees when digging on company-owned, leased, or personally-owned property. For information on how to implement such a program please visit the *811 – Call Before You Dig* section of Pipeline and Hazardous Materials Safety Administration’s (PHMSA’s) website at www.phmsa.dot.gov.
