EXPRESS OVERNIGHT DELIVERY

September 24, 2012

Thomas Kukosky
Director of Operations
PEI Power Corporation
170 Power Blvd.
Archbald, PA 18403

CPF 1-2012-0004M

Dear Mr. Kukosky:

From May 2-4, 2011, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code conducted an on-site pipeline safety inspection of PEI Power Corporation's (PEI) procedures for the plastic transmission landfill pipelines located in Archbald, PA. As a result of the inspection, PEI was issued a Notice of Amendment on July 17, 2012.

We received your follow-up letter dated September 17, 2012 along with attachments in response to the Notice of Amendment.

As you are aware, Pennsylvania Legislature recently passed a law that expanded the Pennsylvania Public Utility Commission authority to inspect and enforce intrastate transmission pipelines such as this pipeline. The Pennsylvania Public Utility Commission has now assumed the responsibility for inspection and enforcement of your pipeline system.

Accordingly, no further action is necessary in connection with this case. This case is now closed.

Sincerely,

Byron Coy, PE
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration

cc: Paul Metro, Program Manager/ Pennsylvania Public Utility Commission
