RE: CFP 1-2013-0008M

Dear Mr. Coy:

The City of Danville (City) has received your Notice of Amendment dated December 23, 2013. Upon review, the City does not wish to contest this order.

In response to the Notice of Amendment, we the City provide the following:

1. **§ 192.617 Investigation of Failures.**

   Each operator shall establish procedures for analyzing accidents and failures, including the selection of samples of the failed facility or equipment for laboratory examination, where appropriate, for the purpose of determining the causes of the failure and minimizing the possibility of a recurrence.

The City of Danville's procedures for analyzing accidents and failures for the purpose of determining the causes of the failure and minimizing the possibility of a recurrence were inadequate. The City of Danville, Virginia – Natural Gas Operations and Maintenance Plan, Chapter II, Part G-11, Sections 3.5 and 3.6 state that:

a) "Documentation of these failures is necessary to establish trends and help prevent future failures. Examples of items to document include":

   1. Inoperable valves that cannot be corrected with normal maintenance

2. Relief or regulator failures
3. Meter failures and malfunctions
4. Cracks, leaks or other failures of any flanges, fittings, or other components

b) "Detailed investigation of other failures should also be conducted based on the extent applicable…" and

The procedure does not provide sufficient detail for the type of documentation that is required for each type of failure. It does not define what the term "extent applicable" means and how it is used to trigger a detailed investigation. Also, the procedure does not provide direction for determining the root cause of the failure.

The City's response:

The City will review and make necessary changes to Chapter II, Part G-11, Sections 3.5 and 3.6 of the Operations and Maintenance Plan. The submission will be made. These revisions to these sections will be submitted by February 27, 2014. The costs of this work will be included in the submission.

Sincerely,

Allen Wiles

Mr. Steve Saum, Dir. Of Utilities
City of Danville, VA
1040 Monument St.
Danville, VA 24541

CPF 1-2013-0008M

Dear Mr. Saum:

On March 19 through 22, 2012, an inspector from the Virginia State Corporation Commission (VA SCC) acting as Agent for the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code, inspected the City of Danville's (City) operations and maintenance procedures in Danville, VA.

On the basis of the inspection, PHMSA has identified the apparent inadequacy found within the City's plans or procedures, as described below:

1. **§192.617 Investigation of failures.**
Each operator shall establish procedures for analyzing accidents and failures, including the selection of samples of the failed facility or equipment for laboratory examination, where appropriate, for the purpose of determining the causes of the failure and minimizing the possibility of a recurrence.

The City of Danville's (City) procedures for analyzing accidents and failures for the purpose of determining the causes of the failure and minimizing the possibility of a recurrence were inadequate. The City of Danville, Virginia – Natural Gas Operations and Maintenance Plan, Chapter II, Pat G-11, Sections 3.5 and 3.6 state that:

a) "Documentation of these failures is necessary to establish trends and help prevent future failures. Examples of items to document include":

1) Inoperable valves that cannot be corrected with normal maintenance
2) Relief or regulator failures
3) Meter failures and malfunctions
4) Cracks, leaks or other failures of any flanges, fittings, or other components

b) "Detailed investigation of other failures should also be conducted based on the extent applicable..."and

The procedure does not provide sufficient detail for the type of documentation that is required for each type of failure. It does not define what the term "extent applicable" means and how it is used to trigger a detailed investigation. Also, the procedure does not provide direction for determining the root cause of the failure.

Under 49 United States Code, § 60122, you are subject to a civil penalty not to exceed $200,000 per violation per day the violation persists up to a maximum of $2,000,000 for a related series of violations. For violations occurring prior to January 4, 2012, the maximum civil penalty may not exceed $100,000 per violation per day, with a maximum penalty not to exceed $1,000,000 for a related series of violations. This authorizes PHMSA to make findings and issue a compliance order;

III. **Procedure for Requesting a Hearing**

A request for a hearing must be in writing and accompanied by a statement of the issues that the respondent intends to raise at the hearing. The issues may relate to the allegations, new information, or to the proposed compliance order or proposed civil penalty amount. Refer to 49 C.F.R. § 190.225 for assessment considerations upon which civil penalties are based. A respondent's failure to specify an issue may result in waiver of the right to raise that issue at the hearing. The respondent's request must also indicate whether or not respondent will be represented by counsel at the hearing. Failure to request a hearing in writing within 30 days of receipt of a Notice waives the right to a hearing. In addition, if the amount of the proposed civil penalty or the proposed corrective action is less than $10,000, the hearing will be held by telephone, unless the respondent submits a written request for an in-person hearing. If you believe the information you are providing is security sensitive, privileged, confidential or may cause your company competitive disadvantages, please clearly identify the material and provide justification why the documents, or portions of a document, should not be released under FOIA. If we receive a request for your material, we will notify you if PHMSA, after reviewing the materials and your provided justification, determines that withholding the materials does not meet any exemption provided under the FOIA. You may appeal the agency's decision to release material under the FOIA at that time. Your appeal will stay the release of those materials until a final decision is made.
