Dear Mr. Pustulka:

From June 25 to 29, 2012, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), Office of Pipeline Safety (OPS), pursuant to Chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of National Fuel Gas Supply Corporation's (National Fuel) procedures in Buffalo, New York. As a result of this inspection, National Fuel was issued a Notice of Amendment on May 30, 2013, which proposed amendment of your procedures.

We are in receipt of your letter dated June 28, 2013, in which you provided excerpts from your amended procedures. We reviewed your letter, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Byron Coy, PE  
Director, Eastern Region  
Pipeline and Hazardous Materials Safety Administration
