Dear Mr. Neave:

From June 2 through October 24, 2013, representatives from Pipeline and Hazardous Materials Safety Administration, Office of Pipeline Safety and an interstate agent from New York State Department of Public Service, pursuant to Chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Transcontinental Gas Pipe Line Company, LLC's (Transco) procedures. As a result of the inspection, Transco was issued a Notice of Amendment on October 2, 2014, which proposed amendment of its procedures.

Transco submitted its amended procedures on November 12, 2014. My staff reviewed the amended procedures and it appears that the inadequacies outlined in the Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Byron Coy, P.E.
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
