Dear Mr. Drake:

On May 22 and 23, 2014, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA), Office of Pipeline Safety, pursuant to Chapter 601 of 49 United States Code conducted an investigation into an incident that occurred on the Texas Eastern Transmission, LP (Spectra Energy Corp) (hereafter referred to as Spectra Energy) 30-inch diameter natural gas transmission pipeline known as Line 10. The incident occurred near Carmichael, Pennsylvania, on May 16, 2014 at 11:15 a.m., which resulted in property damage of \$186,437.

As a result of the inspection, Spectra Energy was issued a Notice of Amendment on July 8, 2015, which proposed amendment of your procedures.

Spectra Energy submitted amended procedures on August 31, 2015.

My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary, and this case is now closed. Thank you for your cooperation.

Sincerely,

Byron Coy, PE
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
