Dear Mr. Oostman:

From December 8 through December 12, 2014, representatives of the Pipeline and Hazardous Materials Safety Administration (PHMSA), Office of Pipeline Safety (OPS), pursuant to Chapter 601 of 49 United States Code inspected the Columbia Gas Transmission, LLC (CGT) Liquefied Natural Gas (LNG) Operations and Maintenance procedures in Chesapeake, Virginia. As a result of the inspection, CGT was issued a Notice of Amendment on August 31, 2015, which proposed amendment of your procedures.

CGT submitted its amended procedures on October 20, 2015. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary, and this case is now closed. Thank you for your cooperation.

Sincerely,

Byron Coy, PE
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
