Dear Mr. Etzel:

From July 27 – September 3, 2015 a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code inspected Kinder Morgan Liquid Terminals, LLC. (KMLT) procedures in Perth Amboy and Carteret, New Jersey. As a result of the inspection, KMLT was issued a Notice of Amendment (NOA) on November 2, 2016, which proposed amendment of its procedures.

KMLT submitted a response to PHMSA on November 30, 2016. In its response, KMLT requested a time extension to make necessary amendments to its procedures. PHMSA granted KMLT a 45 time extension. On January 10, 2017 KMLT submitted its amended procedures. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this NOA have been corrected.

This letter is to inform you no further action is necessary, and this case is now closed. Thank you for your cooperation.

Sincerely,

Robert Burrough
Acting Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
