Dear Mr. Pearson:

From May 18 through May 22, 2015; a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, inspected Magellan Terminals Holdings, LP's (Magellan) procedures in New Haven, Connecticut. As a result of the inspection, Magellan was issued a Notice of Amendment on December 15, 2016; which proposed amendment of its procedures.

Magellan submitted its amended procedures on January 13, 2017. In its response, Magellan requested that Item #1 of the NOA be removed. PHMSA responded on April 18, 2017; with an Order Directing Amendment, directing Magellan to revise the procedures for Item #1 of the NOA. Magellan then submitted its amended procedures on May 17, 2017. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you that no further action is necessary, and this case is now closed. Thank you for your cooperation.

Sincerely,

Robert Burrough
Acting Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
