Houston, TX 77002

CPF 1-2017-1014M

Dear Mr. Chapman:

From September 27 to September 29, 2016; a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Portland Natural Gas Transmission System's Control Room Management Procedures in Calgary, Alberta, Canada. As a result of the inspection, TransCanada was issued a Notice of Amendment on June 6, 2017; which proposed amendment of your procedures.

TransCanada submitted its amended procedures on December 21, 2017. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Robert Burrough
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
