Dear Mr. Wilson:

From October 18-21, 2016; a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Distrigas of Massachusetts' (Distrigas) maintenance procedures in Everett, Massachusetts. As a result of the inspection, Distrigas was issued a Notice of Amendment on May 11, 2017; which proposed amendment of your procedures.

Distrigas submitted its amended procedures on December 11, 2017. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Robert Burrough
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
