Mr. Robert Burrough  
Acting Director, Eastern Region  
Pipeline and Hazardous Materials Safety Administration

Re: Distrigas of Massachusetts LLC  
Notice of Amendment CPF 1-2017-3001M

Dear Acting Director Burrough,

Distrigas respectfully provides this submittal of amended procedures EMT-107M Cathodic Protection Inspection and EMT-109 Corrosion Control Inspection; in compliance with Notice of Amendment CPF 1-2017-3001M, received on May 12, 2017.

The plant wide corrosion inspection procedure EMT-049 and Corrosion Probe Inc. Comprehensive Plan for Plant-Wide Corrosion Inspection/Monitoring/Protection Program, Everett Plan, provided during the time of inspection, has been eliminated. The revised requirements of EMT-049 have been incorporated into procedures EMT-107M Cathodic Protection Inspection and EMT-109 Corrosion Control Inspection; to avoid any confusion as to the individual requirements of atmospheric corrosion and cathodic protection procedures.

A copy of EMT-107M and EMT-109M being sent priority overnight to your office and an electronic copy will be provided in two separate emails.

Respectfully submitted,

Susan A. Stritter  
Regulatory Compliance Manger  
On behalf of Distrigas of Massachusetts LLC

CC: Robert Wilson, Chief Executive Officer  
Jason Austin, VP, General Counsel
