CPF 1-2017-5021M

Dear Mr. Bacon:

From March 21, 2016 – December 2, 2016, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, inspected Enterprise Products Operating, LLC (Enterprise) procedures, records and pipeline facilities in Houston, Texas; Greensburg, Pennsylvania; Dubois, Pennsylvania; Lebanon, Ohio; Morgantown, Pennsylvania; Sorrento, Louisiana; Monee, Illinois; Seymour, Indiana; and Little Rock, Arkansas. As a result of the inspection, Enterprise was issued a Notice of Amendment on May 4, 2017, which proposed amendment of its procedures.

On May 11, 2017, Enterprise requested a time extension of 60 days to provide a total of 90 days to respond. PHMSA granted this request on May 15, 2017. On August 2, 2017 Enterprise submitted its response to the NOA. On October 15, 2018, PHMSA issued an Order Directing Amendment (ODA) for Enterprise to further amend and modify its procedures. On November 6, 2018, Enterprise requested a time extension to fully respond to the ODA. PHMSA granted this request on November 19, 2018. Enterprise submitted its amended procedures on January 15, 2018. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this ODA have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Robert Burrough
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
