

OVERNIGHT EXPRESS DELIVERY

February 27, 2018

Mr. Mark Cluff
VP Safety & Operational Discipline
Williams Field Services
One Williams Center
Tulsa, OK 74172

CPF 1-2017-5030M

Dear Mr. Cluff:

From March 6 – 10, 2017, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code inspected Williams Field Services' (Williams) procedures for operations and maintenance in Moundsville, West Virginia.

As a result of the inspection, Williams was issued a Notice of Amendment (NOA) dated October 30, 2017. In response to the NOA, Williams requested a 90-day time extension on November 29, 2017. PHMSA granted the request on November 30, 2017. Williams submitted revised procedures on February 16, 2018. PHMSA reviewed the amended procedures, and it appears that the inadequacies outlined in this NOA have been corrected.

This letter is to inform you that no further action is necessary, and this case is now closed. Thank you for your cooperation.

Sincerely,

Robert Burrough
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
