Dear Mr. Pickering:

Between October 14 and November 16, 2015, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), Office of Pipeline Safety pursuant to Chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Philadelphia Energy Solutions Refining and Marketing, LLC's (PES) procedures in Philadelphia, Pennsylvania. As a result of the inspection, PES was issued a Notice of Amendment (NOA) on September 12, 2017, which proposed amendment of your procedures.

PES submitted its amended procedures on February 2, 2018 and May 10, 2018. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this NOA have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Robert Burrough
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
