Mr. Stanley Chapman III
President, US Gas Pipelines
Columbia Midstream Group, LLC
700 Louisiana Street, Suite 700
Houston, TX 77002

CPF 1-2017-6008M

Dear Mr. Chapman:

From April 24-28, 2017, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code inspected the procedures and records of Columbia Midstream Group, LLC, a subsidiary of TransCanada (TransCanada), at its pipeline facility located in Leetonia, Ohio.

As a result of the inspection, TransCanada was issued a Notice of Amendment (NOA) dated December 14, 2017. In response to the NOA, TransCanada discussed updates and changes to multiple procedures; however, these procedures were not incorporated for review in the response letter on February 12, 2018. Subsequently, PHMSA granted an additional 30 days for TransCanada to respond to the NOA and provide the updated procedures. TransCanada submitted its revised procedures on March 1, 2018. PHMSA has reviewed the amended procedures, and it appears that the inadequacies outlined in this NOA have been corrected.

This letter is to inform you that no further action is necessary, and this case is now closed. Thank you for your cooperation.

Sincerely,

Robert Burrough
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
