Dear Mr. Dunbar:

From April 5 – 8, 2018, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of Title 49 of the United States Code inspected ONEOK Gas Transportation, LLC's (ONEOK's) procedures for Functional Integrity of Underground Natural Gas Storage in Tulsa, Oklahoma. Specifically, the Edmond Storage field in Edmond, Oklahoma was inspected.

As a result of the inspection, ONEOK was issued a Notice of Amendment (NOA) on October 29, 2018, which proposed amendment of its procedures. On December 26, 2018, ONEOK responded to the NOA and submitted its amended procedures. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary, and this case is now closed. Thank you for your cooperation.

Sincerely,

Robert Burrough  
Director, Eastern Region  
Pipeline and Hazardous Materials Safety Administration
