Dear Mr. Lau:

From July 31 to August 2, 2018, representatives of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of Title 49 of the United States Code, inspected Cook Inlet Natural Gas Storage Alaska's (Cook Inlet) procedures and records for the Cannery Row Underground Natural Gas Storage field in Kenai Peninsula County, Alaska.

As a result of the inspection, Cook Inlet was issued a Notice of Amendment (NOA) on November 29, 2018.

On December 21, 2018, Cook Inlet responded to the NOA and submitted documentation showing it took certain actions to ensure compliance with the terms of the Notice.

Based on our review of the documentation, it appears that the inadequacies outlined in this NOA have been corrected.

This letter is to inform you no further action is necessary, and this case is now closed. Thank you for your cooperation.

Sincerely,

Robert Burrough
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
