Dear Mr. Grubb:

From August 1-3, 2017 and August 29-31, 2017, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Tennessee Gas Pipeline Company's procedures in Agawam, MA. As a result of the inspection, Tennessee Gas Pipeline Company was issued a Notice of Amendment on February 9, 2018, which proposed amendment of your procedures.

Tennessee Gas Pipeline Company submitted its amended procedures on April 12, 2018. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Robert Burrough
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
