Dear Mr. Cluff:

From June 13-15, 2017, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Transcontinental Gas Pipe Line Company's (a subsidiary of Williams Pipeline L.P., (Williams)) procedures in Appomattox, Virginia. As a result of the inspection, Transcontinental Gas Pipe Line Company was issued a Notice of Amendment on February 13, 2018, which proposed amendment of your procedures.

Transcontinental Gas Pipe Line Company submitted its amended procedures on March 14, 2018. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Robert Burrough
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
