CPF 1-2018-1017

Dear Mr. Sheppard:

On August 6, 2018, Dominion Energy Transmission, Inc. (Dominion) was issued a Notice of Probable Violation and Proposed Compliance Order (Notice), for the case number referenced above. This Notice cited Dominion for lack of sufficient depth of soil cover. Specifically, under 49 C.F.R. § 192.13 and 49 C.F.R. § 192.327, it was alleged that Dominion failed to meet the Class 2 location cover requirements for replaced portions of its TL – 342 pipeline.

After meetings held between PHMSA and Dominion where additional information was provided, PHMSA has decided not to pursue this probable violation.

This letter is to inform you that PHMSA hereby withdraws the Notice.

Sincerely,

Robert Burrough
Director, Eastern Region
