Dear Mr. Fedena:

From December 5, 2016 to December 8, 2016, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Delaware Pipeline Company, LLC's (Delaware) procedures in Delaware City, DE. As a result of the inspection, Delaware was issued a Notice of Amendment on March 26, 2018, which proposed amendment of your procedures.

Delaware submitted its amended procedures and on August 15, 2019 Delaware submitted its Response Letter. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Robert Burrough
Director, Eastern Region
Pipeline and Hazardous Materials Safety Administration
